

SUMMARY

Quantitative Researcher with strong interest in statistical modeling, time series analysis, and systematic trading strategies. Focused on quantitative research workflows, factor modeling, and development of robust backtesting and market data analysis tools.

EXPERIENCE

GYI Moscow, Russia
Data Analyst *October 2025 — Present*

- Collected, cleaned, and structured large-scale financial and transaction datasets for internal analytics.
- Analyzed incoming payment flows to identify patterns, anomalies, and key revenue drivers.
- Built analytical reports and dashboards supporting operational and financial decision-making.
- Assisted in budget planning and forecasting based on historical transaction data and trend analysis.

EDUCATION

Bauman Moscow State Technical University Moscow, Russia
B.Sc. in Robotics and Mechanical Engineering (SM-9) *2020 — 2025*

- Engineering and mathematical training with focus on modeling, control systems, and data analysis.
- Relevant coursework: Higher Mathematics, Probability Theory, Linear Algebra, Mechanics, Algorithms.

ADDITIONAL EDUCATION

MSU-VTB Vega Institute Moscow, Russia
Advanced Program in Financial Mathematics *2025 — Present*

- Coursework includes derivatives pricing, stochastic calculus, and quantitative risk modeling.
- Studied Black-Scholes framework, Brownian motion, Itô processes, and martingale methods.

Quantitative Research Course Moscow, Russia
[quant.courses](#) *Oct 2025 – Dec 2025*

- Training in quantitative research and systematic trading fundamentals.
- Strategy development workflow: data preparation, hypothesis testing, validation.
- Implemented educational trading strategy with backtesting and cross-validation.

Moscow Automobile and Road Construction State Technical University (MADI) Moscow, Russia
Engineering Studies *2025 — Present*

- Faculty of Road and Technological Machines.
- Coursework includes mathematics, mechanics, and engineering systems.

SKILLS

- **Languages:** Python, C++
- **Data Analysis:** Polars, Pandas, NumPy, Scikit-learn, Matplotlib, PyTorch
- **Quant Tools:** Backtesting, Time Series Analysis, Data Processing
